

How Teaching Can Help You Be a Better Student (and Scientist!)
Annelise Thompson Heidi Klumpe (2018)

How can you use **distributed practice**...

As a TA?	As a student?
----------	---------------

How can you use **formative assessment**...

As a TA?	As a student?
----------	---------------

Think about a (current or former) research project. **If you were to present on this project...**

What's one thing your audience should remember?	How would you design your presentation to ensure the audience learns it?
---	--

Write down one strategy you learned about in this session that you found interesting. How will you use it as a student? As a TA?
