

Motivating Your Students and Yourself

Think • Pair • Share

What was your favorite class in undergrad or graduate school? What did your teacher do to make that class successful and interesting?

• Class discussion •

How do you include opportunities for feedback in the classroom? How can you use feedback opportunities to motivate your students?

• Reflection •

What's one exciting application of your research you could share with your students in the coming year? How does it relate to some of the concepts students might see in the course(s) you TA?

What is one way I want to motivate students in my class this quarter or in the future?
